Comments:

Do you feel this project is appropriate to include in the student's portfolio considering skill-level demonstrated?

Comments: Yes, you did a great job on this. Everything looks clean and is easy to understand. The design flows well.

Did you experience any technical difficulties as you navigated through the website or displayed the project?

Comments: None.

What are the main strengths of the project?

Comments: The design is consistent and there isn't a ton of text which makes navigating easy.

What are the main things that could be improved with the project?

Comments: I would say making the homepage footer fixed to the bottom of the page. The extra white space down there doesn't sit right. On the contact page you start to use gradients, I would try to apply that in other places as well for consistency. Overall nice work!
